

Centerville School NEWSLETTER

September 29, 2017

THANKS - A big thank you to all who participated in the recent 5th/6th Grade Outdoor School Trip fundraiser. The address booklets were sent back to School Mall. The people you sent to should receive a flier and information in the mail soon. They can order from the website or by paper. Money from a portion of those orders come back to the school for the Outdoor School Trip to Newport Beach in the spring. Congratulations to Wade Endicott and Grant Young for winning the emoji t-shirts. A BIG congratulation goes out to Taryn Miller for winning the Minion robot! Again, thank you for participating.

PTC - The Parent Teacher Community Boosters will have their first meeting on Thursday, October 5th. This organization is devoted and essential to supporting and enriching Centerville School's activities and events. Everyone is encouraged to be involved and meet other school parents. Meetings are held at the school; plan to join us at 6:00 pm!

ASSESSMENT REPORTS - Student results of the 2017 Smarter Balance Assessment were mailed out earlier this month to parents of students in grades 4-8. If you have any questions on this information, please contact your child's teacher.

VOLLEYBALL -It was a really great week in volleyball for Centerville. This past Monday the team traveled to Lyle/Wishram to take on the Lady Cubs and last night went against the Glenwood Eagles in a home game. The Lady Tigers' and the Junior Lady Tigers' were victorious in their matches against both of these teams! Our girls have been practicing really hard and it is paying off. Way to go girls! Next week we take on the Trout Lake Mustangs on our home court. Come cheer for the awesome Tigers on Thursday!

ASB - Be looking for the exciting new styles of Tiger Wear! Order forms will be sent home next week.

LEGO LEAGUE - Centerville's first Lego Robotics League for 5th- 8th graders is starting up soon! If you are interested in having your child involved, email CaroleGarner, garner.carole@gmail.com. Sign up will be on a first come first serve basis. Team practices will start Monday October 16 through end of November. Meetings will be Mondays 3:00pm- 4:15pm and one other time (tbd depending on what works best for the coach and team members). This non competitive program includes a 75-minute after school meeting one day a week starting and culminating in teams displaying their robotic creation at a league expo in early December.
