

Centerville School NEWSLETTER

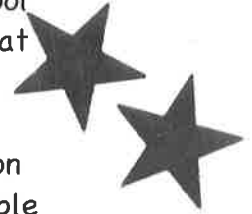

October 20, 2017

PTC - Families, do you know you can help earn "free" money for our school when you shop at Fred Meyer? Their Community Rewards program pays a percentage of what you spend to Centerville School PTC Booster Club. Those funds are then used to help support school programs, students and staff. Stop by the customer service desk at Fred Meyer for more information and to sign up. It's easy!

PICTURE RE-TAKES - Lifetouch Photography will be at school on Tuesday, October 24 for Picture Retakes. Order forms are available at the office if you were absent on picture day or wish to purchase a portrait package. Retakes will also be taken at this time. If a student wants picture retakes they need to bring the full, unused portrait package back to photographer for refund and then can have a new photo taken.

VOLLEYBALL - Monday night's game against Glenwood came down to the 3rd game. Centerville came up with the win in nail biter matches. Our team traveled to Klickitat for the year-end tournament on Wednesday. The drought is over! The lady tigers' clawed their way to the finals starting with a loss against Klickitat, wins against Lyle/Wishram, Glenwood, and Klickitat and finally a double elimination match against Trout Lake. Centerville was victorious and brought home the trophy. Way to go girls, we are proud of our volleyball team!

HALLOWEEN PARTY - Mark your calendar for some fun: Spook Walk, Costume Contests, and the famous Haunted Hall! Prizes will be given for Funniest, Scariest, Most Original, and Best Group costumes. The Centerville School Halloween party will be Monday, October 30, starting at 6:30 pm. Each family is asked to bring small goody items for the Spook Walk.

SAFETY DRILLS - Safety drills for Centerville School students and staff are practiced monthly. We are trained in fire drills, earthquake drills, emergency and lockdown drills. It is hoped that as we practice these drills throughout the year, students become comfortable with the rules and procedures. Then, if we ever have a real emergency, they will be ready. An earthquake drill is scheduled for next week.
