**SCHOOL REUNION** - Centerville School's first graduating class was in 1920, 98 years ago! Our school was built in 1919 and it was the Centerville High School. Elementary children attended outlying one-room country schools at this time. During the 1940s, these tiny country schools began to consolidate into one district, Centerville Public School. In 1943 high school students began attending school in Goldendale and our school became the grade school for students in grades 1-8. Many graduates from years ago will gather on Saturday to visit and share treasured memories of attending this special school. We welcome these friends back to Centerville!

**SPECIAL DAYS** - We are busy coordinating many special days ahead for Centerville students. Information will continue to be sent home in school newsletters as events get closer, but please contact the school if you have questions.
