MARCH SCHOOL BOARD WORKSHOP – Tuesday, March 26 at 6:00 PM the Centerville School Board will have an agenda item dedicated to student growth data. Each year the students' assessment scores are evaluated by the State to “score” Centerville School. At this time, Centerville School is on a Foundational Support Level through the state. This means that Centerville does not receive any additional financial or program support from the state any more than the “basic” educational funding through allocations. Join us in the District office (portable) to learn more.
